

Hyshare Lite is the entry model of the Hyshare product family. It is powerful and cost-effective. It contains one transmitter and one receiver. The plug & auto-cast capability makes it easier to use without the learning curve. The transmitter comes with a high-speed 802.11ac Wi-Fi module and external antenna to bring you a great connection and smooth streaming. Through our advanced receiver, you can even use the mobile phone to cast without effort, this will be a great entry-level product for wireless application.
